RESPONSE TO NOTIFICATION OF DEFECTIVE RESPONSE

MS Sequence

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is in response to the Notification of Defective Response ("Notification"), dated May 7, 2007, enclosing a "Raw Sequence Listing Error Report" ("Report").

The Notification states that the previous "Sequence Listing" in computer readable form did not comply with the requirements of Section 1.824 for the reason indicated in the Report. In particular, the Report notes that the description "primer" under "<223> Other Information:" for SEQ ID NO:3 is erroneous because SEQ ID NO:3 is an amino acid sequence.

In response, submitted herewith is a substitute Sequence Listing, in paper form and computer readable form (a floppy disk), that corrects the defect noted in the Report by replacing the term "primer" with "Synthetic peptide" under <223> for SEQ ID NO:3. Support for the amendment can be found in the last line at page 10 through the first line at

page 11 of the present specification. No new matter has been added to the substitute Sequence Listing.

Attached hereto is a Submission of Substitute Sequence Listing and Statement Under 37 C.F.R. §§ 1.821-1.825. Also attached is a copy of the Notification.

Applicants respectfully request the above-referenced patent application be placed upon the files for examination.

No fee is believed to be due for this submission. Should there be any deficiency in fees, please charge such fee(s) to Deposit Account No. 50-2215.

Dated: June 1, 2007

Respectfully submitted,

By

Applicant's response filed 11/17/2006 is hereby acknowledged. The following requirements set forth in the NOTIFICATION of MISSING REQUIREMENTS mailed 10/26/2006 have not been completed.

- A copy of the "Sequence Listing" in computer readable form has not been submitted as required by 37 CFR 1.821(e). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

Applicant is required to complete the response within a time limit of ONE MONTH from the date of this Notification or within the time remaining in the response set forth in the Notification of Missing Requirements, whichever is the longer. No extension of this time limit may be granted under 37 CFR

1.136, but the period for response set in the Notification of Missing Requirements may be extended under 37 CFR 1.136(a).

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.
